No-Drill Shelf Fit Checklist

Room _____

Wall type _____

Date _____

1. Your space MEASURE

SPACE	WIDTH	DEPTH	HEIGHT / CEILING

2. Your load WEIGH IT

- [ ] Weigh what goes on each shelf on a kitchen or bathroom scale.
- [ ] Check the listing: is the limit per shelf or for the whole piece?
- [ ] Stay well under the limit, especially on adhesive and tension poles.

3. Wall check ADHESIVE ONLY IF ALL ARE TRUE

- [ ] Smooth paint, not textured, brick, vinyl or wallpaper.
- [ ] Paint at least 7 days old (fully cured).
- [ ] Clean with rubbing alcohol, press 30 seconds, wait 1 hour before loading.
- [ ] Not over a bed, a cot or a sofa.

4. Fit check BEFORE YOU BUY

- [ ] Tension pole: floor to ceiling in the exact corner.
- [ ] Over-door rack: door thickness and the gap behind the door.
- [ ] Over-toilet unit: tank width, lid height and room to lift the lid.
- [ ] Tall floor unit: written OK to anchor it to the wall.

5. Move-out LEAVE NO TRACE

- [ ] Pull strips straight down slowly. Fill any anchor hole. Photograph the wall.
